PROJECTS

GPA SIMULATOR

May 2022

- Developed and deployed a website that enables students to calculate their cgpa quickly and easily.
- The gpa simulator can only assist students in babcock university computer club for now, but it is developed in such a way that it can help any student around the world.
- It was developed with my knowledge of html, css, javascript, node.js, ejs, and mongodb.
- Click here to view this project: [Gpa calculator](#)
